DESCRIPTION

Iconic and unparalleled, the Pixel Cabinet presents a ground-breaking work of pioneering design. This piece carries the dedication and art of those who built it, a variety of traditional production techniques to craft an avant-garde furniture piece that is authentic, joyful and a perfect match for the digital age. Its playful character is captured in shape and color palette, challenging design and finest craftsmanship. Made out of 1088 triangles, the upper part of the Pixel Cabinet plays with perception and combines exceptional materials with multicolored compositions to give the cabinet a unique, striking design: handmade leaf gilding triangles, 10 different types of wood leafs from palisander to African walnut veneer, and lacquering. Behind its two doors, this bar cabinet surprises with a timeless combination of aged mirror and a diamond quilted blue silk fabric, containing nine interior drawers, each one with its own golden knob. The polished brass base gives Pixel a unique and sophisticated character.
