DESCRIPTION

After the huge success of Metamorphosis Series, Boca do Lobo creates Metamorphosis Dining Table in order to strengthen this unique concept. This luxury dining table has come to symbolize the evolutionary history of life, representing the last stage of the cycle through the usage of sculpted fossils on display at the top of the table. It also represents the effort made by our designers to questioning the existence of things, by answering a simple question: 'How can we define something as living?' According to Boca do Lobo's quality signature, Metamorphosis Dining Table embodies handmade techniques such as wood carving, metal cutting and hammering, and polishing, executed by some of the best craftsman in the country. A unique product for those who have a peculiar taste for limited edition pieces and conceptual designs.
