DESCRIPTION

Lapiaz cabinet takes exceptional craftsmanship and design to a new realm. Finding beauty in the most unexpected places, this contemporary design piece is inspired by authentic karst formations. Its organic features are achieved through the manual fitting of polished brass, and a sharp finish in polished stainless steel that portrays a perfect mirror. Different-shaped doors and drawer open to a distinct poplar root wood veneer interior. The hammered gold details and the mirrored façade conveys both dynamics and elegance, a beautiful duality between power and refinement to bring a new contemporary verve into interior design. A functional artwork piece born from cold and freshly cracked to showing off the world rich, golden details.
