DESCRIPTION

Masks, often seen as expressions of identity, tradition, and transformation, bring a profound cultural resonance to the design, blending ancestral inspiration with contemporary form. With an original and authentic design, the Mask Coffee Table series explores the interplay between contrasting materials, First, there’s the interplay between the two tabletop finishes: one in solid, deeply sandblasted oak with a matte finish, paired with a sleek, high-gloss chocolate brown surface. Then, there’s the contrast in materials the warm, earthy tones of the tops set against the cold, austere presence of the brushed stainless steel base, which cuts through the surfaces and creates the striking linear details seen on top. This dialogue between strength and fluidity allows the materials and form to speak for themselves. This coffee table set is fully customizable to suit your preferences.
